REPLIES TO AMBASSADOR

Secretary of the Balkan Committee Discusses the Attitude of Germany.

EONDON, June 15.—The article of tacedonia contributed by Baron Volternburg to the New York Outlook has created considerable interest in England and has been commented ipon. A reply to the German ambasiador has been sent to the Outlook by V. A. Moore, secretary of the Balkan committee. In an interview Mr. Moore add:

in the statement that Germany now sees with the whole civilized world the state of affairs is unbearable urgently calls for a remedy, is twelcome. But what remedy does nany propose, and how does she nelle her insistence on the mainnee of the status quo with this pubted urgency? Germany, he says sees that something urgent must be, but this something to be successmust have the firm support of all must have the firm support of all

OF EXAMINATIONS

Further Steps Taken to Keep Disease-Stricken Immigrants Out of the Country.

Out of the Country.

NEW YORK, June 15.—Oscar S. Straus, secretary of the Department of Commerce and Labor, presided over an important conforence to-day at Ellis Island, and the result of the meeting will probably be an improvement in the general character of the examination of immigrants entering this port and others on the Atlantic coast.

Those present in addition to the secretary, were Frank P. Sargent, commissioner-general of immigration; Robert Watchorn, commissioner at New York; John H. Clarke, commissioner at Montreal; John Rogers, commissioner at Hiladelphia; Louis T. Wels, commissioner at Baltimore, and George Billings, commissioner at Boston.

An important object of the conference was to consider a plan whereby a uniform system of disease diagnoses might be put into operation, thus making it impossible for an immigrant who has falled to enter at any port to be entered elsewhere after an examination.

A medical expert from each of the ports represented in the conference attended, and submitted such plans as in his personal opinion would benefit the general establishment. These will be taken under consideration at Washing ton and the results will be put in con-

general establishment. These will be taken under consideration at Washing-iton and the results will be put in concrete form for consideration. There will be as little delay as possible in the issuance of an order with explicit instructions to every commissioner of immigration to see that it is rigidly carried out in letter and spirit.

No action was taken on the plan for the suppression of the so-called "white slave" traffic.

CONSCIENTIOUS **DRUGGIST**

About a year ago E. A. Sodergren, a druggist, wrote us from Callaway, Nobraska, that he had a scrious case of kidney disease, and that his physician did not offer him much encouragement. He desired to put Fulton's Renal Compound in stock for his own case, and if he got results he would sell it to others. He wrote several times for advice, showing a very obstinate case. He now writes: "It is now ten months since I began using the compound, and although my case has been very obstinate, it seems to have finally yielded to the treatment. I have no doubt results would have been obtained sooner had I not kept at work."

(Due to the results obtained in this case our agencies were prometly accepted in Callaway and the adjoining town.)

Simply another case of kidney trouble in which the inflamed kidneys refused to respond to the futile old-time kidney excitants, and that, after all else had falled, yielded to Fulton's Renal Compound, the first and only emollient for inflamed kidneys. PRINCE WINS A BRIDE.

Daughter of Duke of Rutland Will Be Daughter-la-Law of Connaught.

LONDON, June 15.—It is announced with an air of authority that the betrothal of Lady Marjorle Manners, the beautiful daughter of the Duke of Rutland, one of the premier nobles of the kingdom, and Prince Arthur of Connaught, son of the Duke of Connaught, son of the Duke of Connaught, son of the Buke of Connaught, son of the Buke of Connaught, son of the Duke of Connaught, son of the Duke of Connaught, son of the Duke of Connaught, son of the Lady Marjorie and her royal suitor have beaten down opposition with a persistency that has won all classes of society.

There really has been no reason for opposition to the engagement, save royal obstinacy, the prince's father and the King having been looking around for some continental princess or highness of wealth who would be a suitable match for a scion of the reigning house, who is a poor man. The gallant prince has had a mind of his own on the subject of his bride, and
